

**Melanie Rosenthal Dipl. Ing. Architektin**  
Project Lighting Designer

Melanie Rosenthal trained as an Architect at the University for Applied Sciences in Darmstadt in Germany. She developed a enthusiasm for lighting throughout her studies which resulted in her conducting her thesis on the design of a monastery led by daylight design.

Upon graduating Melanie was employed with Dierks Blume Nasedy Architekten in Darmstadt, where she worked on projects such as Wella Headquarters and Döhler Laboratory Administration Building.

Melanie joined Speirs and Major Associates in 2004 where her projects include: Sheikh Zayed Bin Sultan Al Nahyan Mosque in Abu Dhabi, Dresden Hauptbahnhof in Dresden, Quartermile project in Edinburgh, Royal Victoria Hospital in Belfast and the AXA Tower in Paris.

She is an active member of PLDA and was involved in the 2006 workshop in Birmingham. She has also given a series of educational lectures. Melanie enjoys hill walking in the Scottish Highlands.
